I Didn't Know That...

Mercy Health/Love County Hospital, Clinic and EMS proudly offers:

PATIENT INTERPRETER

Medical personnel throughout the hospital use our Video Remote Interpreter Service (VRI) for speaking with patients when there is a communication barrier. The system works 24 hours a day in more than 200 languages, including American Sign Language. At the push of a button, a medically-trained interpreter appears on the monitor screen and begins interpretation between nurse and patient in the patient's native language.
