EMS RESCUE TOOLS CUT THROUGH CARS

What is It?

Lancier Extrication Tools used by Love County EMS-Fire Brigade to free trapped motorists.

Spreader: The spreader arms open to pry apart metal, such as an inoperable car door, illustrated above by Firefighter/EMT Jeff Carey.

Cutter: (Above right) Powerful hydraulics apply almost 250,000 pounds of pressure to cut through the car's roof and frame. A turn knob

in the handle activates the tool. A Ram tool (not shown) jacks up a crushed dashboard.

Hydraulic Pump: A motorized pump drives hydraulic fluid through a hose to the rescue tool. Firefighter/EMT Tyler Hundt and Carey connect the system.
